## IN WAR DISTRICT

Rev. Graham Lee, the Missionary,  
Tells of Stirring Times  
in the Far East.

### FAMILY STILL AT PYENG YANG

Russians Make Their Appearance  
Three Miles From Town  
Feb. 21.

Pyeng Yang, Korea, April 13, 1904. Dear Dr. Marquis: Doubtless you have been wondering how we are and how we have fared these stirring times. Our station is intact, and we are all at work as usual, except that we haven't traveled in the country much since trouble began. During the first of the second week of February we who were in the country were ordered into town by our Ameri-

Rev. Graham Lee.

can minister, who told us war was about to begin. We promptly came in and awaited results. Just at this time there were a great many rumors of an expected rising among the Tong Haks. This is a secret society somewhat akin to the Boxers of China, and their avowed purpose is to kill the Christians and drive out all foreigners. As I said, rumors about a threatened rising were flying thick and fast, and many of our Christians had been threatened. A Tong Hak, who had been a Christian, but had gone back, sent a special message to Dr. Moffett, the import of which was that if he heard of a rising to immediately get on a boat and go out to sea; for if he didn't, he would surely be killed. Of course, this was meant for us all. Many of the Koreans were nervous and excited; in fact, we were all on somewhat of a tension. At the time when rumors were flying the thickest the Japanese merchants in the city received news of the victories at Chemulpo and Port Arthur. They got the news after dark one evening, and so elated were they that they started out to have a celebration, and one of the first things was to come out and tell us about it. Our houses are outside the city wall, to the westward. A crowd of them got lanterns, and out they came, yelling like wild Indians.

#### Believed Tong Haks Coming.

We were sitting in our home reading, and in the distance heard some sort of a disturbance, but paid no attention to it, when suddenly we heard someone running up the walk, and then into our sitting room burst two of our servants, out of breath and with their eyes fairly bursting from their heads, and all they could say between gasps was: "They've come! They've come!" meaning the Tong Haks. They didn't wait, but flew out as fast as they burst in, to seek a hiding place. I stepped out on the porch to see what was going on, and, sure enough, down in front of Moffett's it sounded like there was a row, and

some Korean was yelling as if his time had come. If the Tong Haks had come, I wanted to be ready to meet them half way, so I took down my rifle and started down to where I saw the people gathered, and soon I met a Korean who told me what it was all about. Well, we had a good laugh over it; but when those two scared Koreans burst in on us it did look as if something was up.

We soon had word of the landing of the Japanese army, and then orders came from our minister that the ladies and children should come out from Sen Chene and from the American mining concession north of us. We sent chair bearers to the Sen Chene people, and then waited in suspense, for we soon heard of the Russian cavalry that had crossed the Yalu.

We knew that the Japanese were coming from the south and the Russians from the north, and we began to wonder if Pyeng Yang would be the place where they would meet. All this time we had our trunks packed ready to send the ladies and children out just as soon as a boat could get into Chinampo. We are ice-bound in winter.

#### Japanese Soldiers Arrive.

On Feb. 21 the first Japanese soldiers arrived, and just a week later the Russians made their appearance three miles from town, and that morning the first shots on land were exchanged. No harm was done, but the Russians had accomplished their purpose. They had met the Japanese advance guard, so they turned and went back.

That morning the Japanese consul sent us out a letter stating that the Russians were near, and that there might be firing during the day, and that we had better bring our ladies into the city. We prepared to take our chances in our own homes, so we all remained where we were. We had our plans made though as to what we would do if the bullets began to fly.

The Japanese army has gone on, and now very few soldiers are in town. Everything seems to be quiet in the country and some of the men are now out upon their circuits. I am teaching in the academy or I would be out myself. All indications seem to point to a great ingathering this spring. Reports from the country speak of great numbers who profess to be interested. I am very anxious to get out myself, but the academy work will keep me until May 15.

With kindest regards to all the Broadway friends,

Sincerely yours,

GRAHAM LEE.

P. S.—When the boat came to take the ladies and children, the occasion didn't seem to demand their going, so we are all still here. Of course, there may be trouble later, but we were willing to take the risk.

#### In Korea Ten Years.

Rev. Lee was sent out as a missionary by the Broadway Presbyterian Church in 1894. When he arrived at Pyeng Yang there was not the slightest evidence of the presence of Christianity. Now there are 11,905 adherents affiliated with the Pyeng Yang station. There are 179 recognized out-stations. The attendance at the mid-week prayer meetings conducted by Rev. Lee ranges from 1,000 to 1,700. Aside from his church he has the Anna Davis academy, built by S. S. Davis, of this city, and the Helen Marquis chapel, the latter a memorial to the little daughter of Rev. and Mrs. Marquis, of this city. With Rev. Lee are his wife and three children and Mrs. Lee's mother.

## RUSH WILL BE ON

When Rosebud Agency in South Dakota is Opened in August.

### CHOICE WILL BE DECIDED BY LOT

Estimated 50,000 People Will Try o Secure Claims—The Terms.

Thousands of farmers all over the country are planning to make an attempt to secure a claim in the new government lands that are to be opened in South Dakota in August, according to the terms of the bill signed by President Roosevelt last week.

Part of the Rosebud Indian reservation, comprising 416,000 acres of good agricultural and grazing lands, is to be given away to the lucky ones who draw the numbers. That part of the reservation to be opened for settlement lies within Gregory county, and is a rich strip of country, bounded on the north by the Missouri river and on the south by the Nebraska.

The registration and drawing will take place at Fairfax, the county seat of Gregory county, situated on the C. & N. W. railway, about four miles from the reservation line, making it accessible to those who wish to view the land before filing.

The actual date of registration and filing will not be known until the president's proclamation, which will also give the manner in which the lands will be settled, with the conditions and requirements governing those eligible for registration.

#### Veterans Privileged.

The rights of union soldiers and sailors of the late civil war, or Philippine insurrection, to take lands under the law, cannot be bridged by such proclamation. The price for these lands is as follows: All lands settled upon within three months after the same shall be opened, \$1 per acre when entry is made, 75 cents per acre within two years after entry, 75 cents per acre within three years after entry, and 75 cents per acre within four years after entry, and 25 cents per acre within six months after the expiration of five years from time entry is made.

All lands settled upon within the next three months, \$2 per acre, payable as follows: One dollar per acre when entry is made, 50 cents per acre within two years after entry, 50 cents per acre within three years after entry, 50 cents per acre within four years after entry, and 25 cents per acre within six months after the expiration of five years from time entry is made.

In case entryman fails to pay the amount required within the time limited, he or she shall forfeit all payments, and entry shall be held for cancellation.

Homestead settlers may commute their entries as provided by law, by paying the price agreed, receiving credit for any payment already made. The entryman shall pay the same fees for commutation as is now provided by law.

#### Will Sell Remainder.

Any lands remaining undisposed of after four years shall be sold and disposed of under rules made by the secretary of the interior, for cash, not more than 640 acres to be sold to any one person.

Any and all persons may make entry who are not now limited by the homestead laws, unless excepted by the president's proclamation.

It is estimated that 50,000 people will try for a home on this strip, and the people of Fairfax are already making preparations to handle the crowds.

#### A Startling Test.

To save a life, Dr. T. G. Merritt, of North Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes: "A patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles, so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50 cents, at Hartz & Ulmeyer's.
